<ul style="list-style-type: none"> • I never had any discussion sections or really interacted with Simone Paci at all. • He didn't lecture at all during class and served mostly as a reference for questions and grading, but he was a very helpful resource and was very approachable. • Simone is super nice, understanding and helpful. He also knows a lot on the topic • simone was more approachable but not helpful per say • I met with Simone Paci a couple of times with general questions about the course or the test or the project. Although he was pretty supportive with every interaction we had, the conversations were not as productive as I would've liked them to be. • Very responsive and willing to meet, effective feedback. • I did not really interact with either TA so I am not sure. It would have been nice to have clear expectations of what the criteria for grading was, but both TAs were fair graders and made an effort to turn back our work quickly. • Did not interact with this TA at all 	

2 - What is the overall teaching effectiveness of Simone Paci?
